

NCTM and your local mathematics organizations

High School Institute

What:

Engaging Students in Learning:
Mathematical Practices and Process Standards

When: August 1 – 3, 2013

Where: Washington, D.C.

High School Institute

Activities are designed for you and your peers to achieve defined outcomes together. Participants will

- understand that the mathematical practices in CCSSM and the mathematical processes in NCTM's Process Standards are integral to teaching;

High School Institute

Activities are designed for you and your peers to achieve defined outcomes together. Participants will

- learn instructional strategies that enable students to experience and to develop the habits of mind of a mathematically proficient student;

High School Institute

Participants will—

- examine mathematical content through the lens of the CCSSM mathematical practices and the NCTM Process Standards; and
- engage in activities related to task selection, development, and implementation, both during and after the Institute.

High School Institute

Breakout workshops on topics from Algebra, Geometry and Statistics and Probability by speakers including:

Gail Burrill,

Maria Hernandez,

Bob Ronau,

Mike Shaughnessy, and more

Facilitated working groups by subject area that will focus on the Mathematical Practices

High School Institute

Follow-up online course

Four online keynote sessions, three online working class sessions called e-Workshops, where participants work alone or in breakout groups to understand and apply new ideas, Two interactive online discussions called e-shares

Speakers include Bill McCallum and #Fred

Regionals

There are three regional conferences this year:

Baltimore – October 16-18

Las Vegas – October 23-25

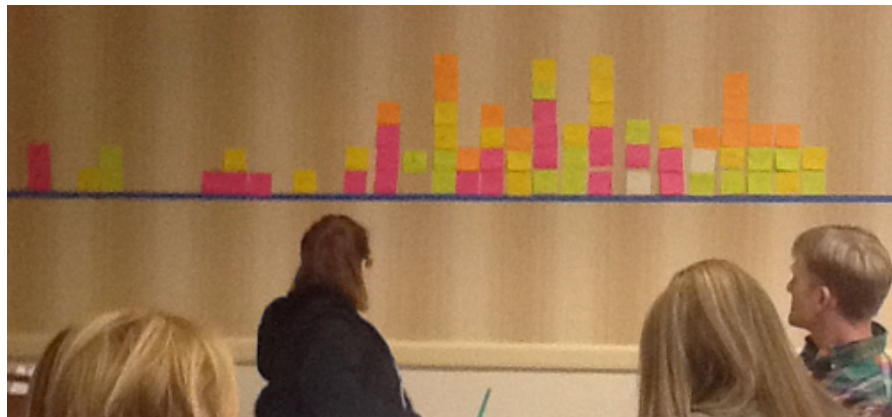

Louisville – November 6-8
