

IGNITE!

Ignite (Ignite Talks) is a series of events where speakers have five minutes to talk on a subject accompanied by

- **20** slides,
- for **15 seconds** each,
- **automatically** advanced.

The first **Ignite** was held in 2006 in Seattle, Washington by Brady Forrest and Bre Pettis, and was sponsored by O'Reilly Media and *MAKEmagazine*.

The Ignite Talks that I'm familiar with were hosted by

- **Key Curriculum Press** from 2010 through 2012.
- **The Math Forum** from 2013 through 2017.

How do I write an Ignite?

- passion
- a collection of 20 tweets
- not complete explanations – just enough to pique interest in the topic (teasers?)

My goal was to have folks come up to me after and say “tell me more about what you meant by”

Questions?
