Asking a Question...

What happens when
a veteran teacher retires?

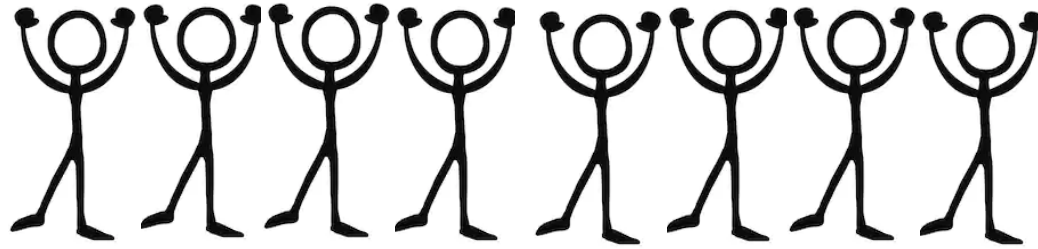

But they left all
their materials
behind!

It's not just the worksheet/activity.
It's how the teacher rolls it out.

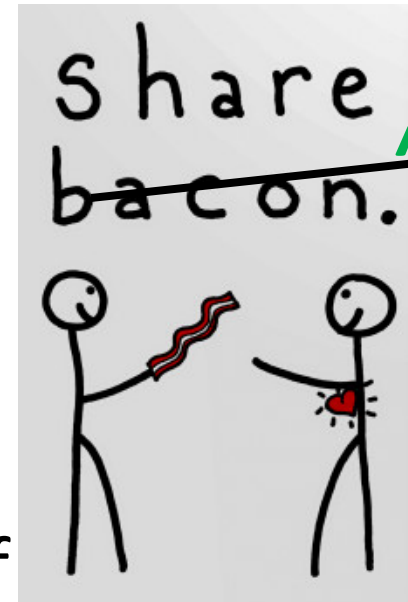

The Project:

- We are planning on compiling and sharing a set of resources
- Activities on **Building Collaborative Culture**: Team Building, Playful Math Tasks, Growth Mindset (Probably things you do in the first weeks, but doesn't have to be)
- **Materials AND Teacher Moves**
 - ★ What you say to students
 - Any context teachers should know (pitfalls, debrief)
 - Why you choose that task

Next Steps:

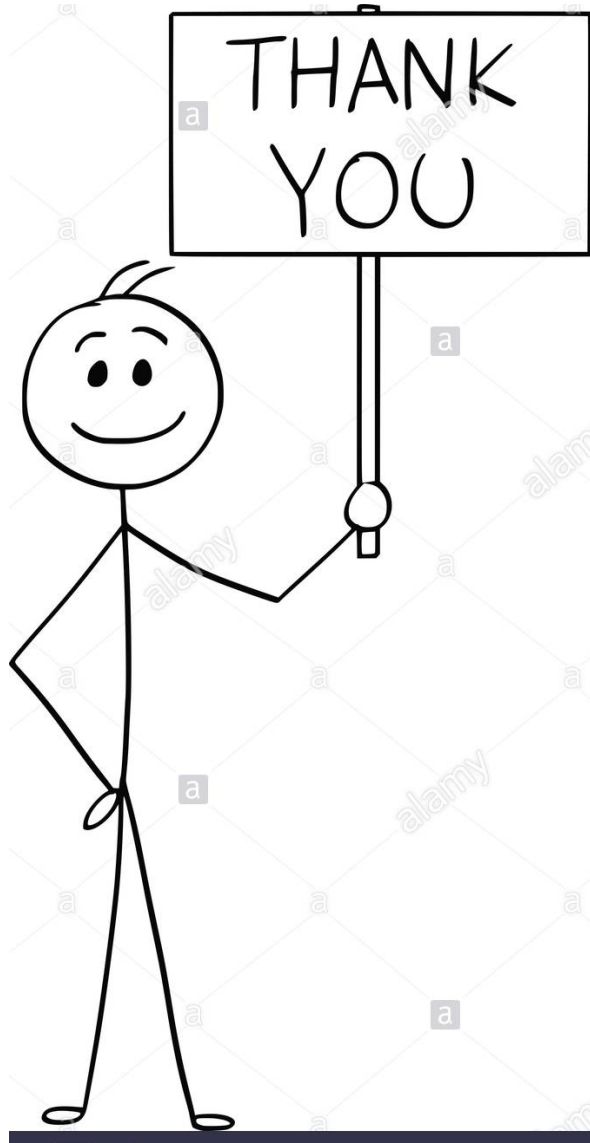

- We'll send you a Google Survey (oooooh)
- **Share** your favorite culture building task
 - ★ What you say to students
 - Any context teachers should know (pitfalls, debrief)
 - Why you choose that task
- We'll compile the tasks and **share** a folder of one-pagers with everyone's contribution

^Materials AND
Teacher moves

FAQs

- How long will it take?
 - 15-30 minutes
- How much should I write? Do I write everything that I say to students?
 - Do the best you can
 - We'll provide an example. Feel free to use if helpful!
- Can it be a non-math task?
 - Yes
- Can I submit more than 1 task?
 - Yes! You ROCK and deserve lots of positive life points!
- Can it be a task I'm inspired to try, but have never actually done?
 - No!

- Google Survey Coming Soon!
- Building Collaborative Culture Tasks
 - What you say to students to roll out the task
 - Any context teachers should know (pitfalls, debrief)
 - Why you choose that task
