Jeopardy

Choose one of the tasks and find a solution.

1. Create a story for the problem 3 divided by ¾ and find a solution to the problem.

2. Create a system of equations that has the solution (-2, 3) and explain how you determined your system. Tweak your system so the solution is the empty set.

3. Create an equation whose graph would be that in the figure.

 $\textbf{Fig. 5} \ \ \textbf{Students are asked to provide a possible equation to match this graph.}$
